Description

Afresh is the world's leading fresh technology company helping grocers make smarter decisions throughout their fresh supply chain, ultimately increasing profits and significantly reducing food waste. Success in fresh relies on making good decisions with incomplete, ever-changing, and uncertain information — realities inherent and inevitable in fresh grocery. Legacy systems and practices for managing fresh inventory are not built to recognize or respond to this reality. Many grocers today are stuck betting their most strategic category on brittle technology and convoluted labor practices, leading to increased costs and reduced quality for consumers. With Afresh's built-for-fresh approach, more than 3,000 stores are seeing incredible results, on average: +3% sales increase +20% improvement in labor efficiency -25% shrink reduction -80% stockout reduction +7% faster inventory turns Learn more at www.afresh.com

Description

Air-Row fans began in 1988 with the goal of cooling commercial buildings with energy efficient technology. Today, Air-Row is one of the most highly regarded providers of air rotation, or destratification, solutions. Air-Row's fan products produce a savings of 20% or more in large buildings, warehouses, big-box stores, supermarkets, sports stadiums, and more. Air-Row's success in helping companies reduce or eliminate energy waste has been recognized nationally. Air-Row is registering with the US Green Building Council and will be accredited by the Green Building Certification Institute. Air-Row products will be certified as part of the LEED (Leadership in Energy & Environmental Design) program, allowing projects to qualify for energy credits. Air-Row is based in Carmel, IN.

Description

Allegiance / Foodtown, is a Retail Services entity which provides Merchandising, Marketing and Technology expertise to its twenty co-op members which operate some 85 stores in three northeast states. Our Member stores (which trade under the Foodtown; D'Agostino's; Freshtown and LaBella Marketplace banners) are diverse in their size, and the neighborhoods / customer demographics they service. As Independent Retailers, we take great pride in aligning ourselves with the food needs of the neighborhoods we service, and in providing great customer service and the highest quality perishables. With sales of \$1.0 bil annually, servicing a densely populated landscape of New York, New Jersey and Pennsylvania, the store growth opportunity is significant. The footprint of our primary supplier - C&S Wholesale - the largest wholesaler in the US, again allows us the scale required to grow the store-base and co-op membership. The Foodtown banner will soon be celebrating its 60th year.

ASDA Group offers shoppers everything from frankfurters to diamond rings. Owned by Wal-Mart Stores, ASDA is the UK's second-largest food retailer (behind Tesco). It operates nearly 250 large stores (averaging more than 55,000 sq. ft.) that primarily sell groceries and apparel. The stores also sell CDs, books, videos, and items for the home. It offers American, Chinese and Mexican take-away meals. Since being bought by Wal-Mart, ASDA has set off a price war in the UK by initiating Wal-Mart's aggressive "price-rollback" program and converting about 10 stores to Wal-Mart's supercenter format under the ASDA-Wal-Mart banner. ASDA's Gazeley unit develops property.

Description

This business makes sure there's plenty of grub for the Wild West. Associated Food Stores (AFS) is a leading regional cooperative wholesale distributor that supplies groceries and other products to some 500 independent supermarkets in about eight Western states. It also offers support services for its member-owners, including market research, real estate analysis, store design, technology procurement, and training. In addition, AFS owns a stake in Western Family Foods, a grocery wholesalers' partnership that produces Western Family private-label goods. The co-op, formed in 1940, also operates 40-plus corporate stores in Utah under five different banners, including Fresh Market.

Blue Ribbon Processing is a USDA inspected meat processing facility in Fowler, CO. We are a community-based, family-first company that believes in supporting the local rancher, farmer and consumer. We specialize in the custom slaughter of beef and pork. Blue Ribbon Processing occupies and continues the custom processing tradition that first started with the generational family business, Jensen's Blue Ribbon Processing. With updated equipment and a customer-focused outlook, Blue Ribbon Processing is ready to serve the community with excellence and a smile. Blue Ribbon Processing aims to provide exceptional customer service, top-quality processing and a satisfactory finished product. We are devoted supporters of the agriculture industry and local educational programs such as FFA and 4-H. It is our pleasure to offer a farm-fresh meat product and outstanding experience to the families of Colorado and beyond.

Description

Bumble Bee® Foods was founded by a handful of dedicated canners back in 1899. As a company Bumble Bee® has grown more than our founding fathers would have dreamed. Bumble Bee employs over 1,000 hard working men and women and is an international company selling canned tuna and salmon throughout the world under the Bumble Bee Label and in Canada under the Clover Leaf brand name. Bumble Bee has canning facilities in Mayaguez, Puerto Rico; and Santa Fe Springs, Ca. Over the years Bumble Bee has transformed its plants from labor intensive production lines to automated lines. By keeping up with today's technology, Bumble Bee is able to provide a quality product at a competitive price. When consumers see the "Bee" on a canned seafood product, they can be assured it means premium quality seafood. Quality is not all the Bumble Bee brand name stands for, Bumble Bee also stands for variety. Our famous "Bee" can be found on a variety of premium quality seafood products. The Bee is on canned crab meat, shrimp, oysters, clams and of course Bumble Bee best sellers albacore and salmon. Bumble Bee is a full service seafood provider!

Description

Our founder Mike Salguero was first introduced to 100% grass-fed beef through a local farmer who sold ¼ and ½ shares of cattle. After trying it, he was instantly hooked. He preferred the more natural taste and was thrilled to discover the many health advantages grass-fed beef has over ordinary grain-fed beef. So his question became, "why isn't everyone eating this?" After doing some research, he discovered that not everyone has access to grass-fed beef, and even if people have access, their selection is often limited to just ground beef. This helps explain why just 1% of the total beef consumed in the United States is 100% grass-fed. Our goal is to make grass-fed beef more accessible than ever before.

Description

Ron Belldegrün and Mia Funt realized that the infant formula industry needed to do better for babies. Breast milk research was moving faster than new product innovation, with three companies owning approximately 90% of the market. Together, they embarked on (what would become) a five-year journey to baby's first food—with no compromises. We recruited world-class doctors, pediatric researchers, seasoned formula experts, dedicated blendmasters, quality obsessives, regulatory veterans, data wonks, storytellers, designers, and passionate parents. Our team began to grow, applying leading research to our unique formulation. We built quality systems and supplier approval requirements from the ground up, traveled the world for like-minded ingredient and farm partners, and refined our small batch approach to ensure we knew how to retain the quality and benefit of every ingredient.

Description

We reach hard-to-reach affinity groups like Latinas or Millennials. We drive traffic via inspiring real life product stories promoting new items. We amplify demos to spike sales outside the 4-6 hour demo period. We make new store openings incredibly successful. And we do all this by using social media to solve shopper marketing problems. CB harnesses the power of social content through our community of geographically and demographically diverse social influencers who have micro audiences centered on specific affinities and passions. They have incredible reach and their content generates high levels of engagement with value-conscious shoppers; this content gets deployed across all social channels and initiates two-way conversations directly with customers to influence purchase decisions. This is shopper social media and CB is the only one who does it.

Catapult - Retail Automation System ECRS Gateway - Supply Chain Management

Description

ECRS future-proofs local and regional retailers to win in today's market, while preparing them for tomorrow's opportunities. ECRS' revolutionary CATAPULT® system is the market's only truly unified transaction platform, running in thousands of locations across North America. With CATAPULT, the point of sale, self-checkout, deli scales, fuel pump, pharmacy, mobile, inventory, customer loyalty, back office, e-commerce, and enterprise management all share one single transactional logic. Unified Transaction Logic™ empowers retailers to prosper by providing actionable business intelligence across their enterprise. Unifying hardware, software, and services, ECRS offers friction-free, cost-saving solutions that increase customer engagement while transforming the consumer experience. ECRS is committed to perpetual development, and expanding value through constant innovation. To that end, CATAPULT is fully-customizable. Optional plug-and-play modules work seamlessly with core applications, offering retailers freedom and flexibility in designing their point of sale platform. Retailers can easily expand platform functionality as their business grows. Exhaustive research, intelligent design, and rigorous pre-market testing ensure that ECRS products integrate smoothly into existing retail environments.

Description

The Erie Food Co-op is a full-service community-owned market. We are a cooperative business, which means we are owned and democratically controlled by our investors. The co-op got its start in 1978 when the Minority Health Education Delivery System (MHEDS), a social service agency in Erie, PA, obtained funds to start a co-op with paid employees. Known as the Food Basket, its purpose was to serve the Hispanic community in the area by providing bulk foods at affordable prices. At the same time, a natural foods market was operating in the area called Rainbow Foods.

Description

Freight Handlers, Inc. provides unloading services to the retail grocery, general merchandise and food service industries. Additional labor resources are also provided -freight hauling, case selection, pallet sorting, and trailer switching. FHI is the quality leader in the professional unloading industry, providing the best overall cost, given competitive pricing and exceptional operational performance. FHI's company-paid benefits and competitive production-paid earnings result in quality employees, low turnover and superior service to our customers. Information is the key to lowering your supply chain costs. Detailed management reports identify component costs that can be reduced or eliminated. Our direct invoicing relationships, with vendors and carriers, ensure the lowest cost supply chain solutions where everyone wins. When you decide to partner with FHI, you can eliminate the hassles of independent lumpers, improve dock safety, and achieve a new level of dock productivity which is being enjoyed today by the two largest, privately-held grocery retailers in the USA.

Founded in 2014, Fountain started with a vision to transform the hiring of hourly workers. The majority of the global workforce is composed of hourly workers, but most applicant tracking systems aren't built for this type of worker. Hiring salaried, knowledge workers is fundamentally different from hiring hourly workers, which is why Fountain's Labor ATS is designed to enable recruiters to efficiently hire hourly workers, from application to start date.

Description

In the 1920s, C.L. George and his sons, Luther and Gene, began hauling live birds from Arkansas to larger markets in the Midwest. Many years later, under the leadership of Gene, George's would grow from a small, local business, to a major, fully integrated poultry operation. When Gene's son Gary took over in the 1980s he positioned the company for growth with more facility expansions and acquisitions. As of 2013, Gary's sons, Carl and Charles, lead the fourth generation of George's, Inc. into success and growth, while maintaining the family values their predecessors instilled in the company. Today, George's is among the top ten largest vertically integrated chicken producers in America.

Description

Because we believe in doers — the ones who take action and get the job done. The ones who change companies and industries forever. Doers take pride in crushing a goal; closing a sale; making a customer happy; and delivering ahead of schedule. Doers don't waste time and don't risk results — they do more with less. We see a world where the doers do less work about work, and have more time for important things — on and off the clock. Always driving forward and taking pride in what they've accomplished. We believe in the doers, because we are doers, too. We are customer-obsessed; execution-oriented; growth-minded, and passionately curious. And we build great products for the doers of the world, so they can do what they do best: Great Work.

Description

At Grobest, we are committed to feeding the world through the development of innovative products to support safe and sustainable aquaculture. Confronted by soaring demand for food due to rapid growth of world population and scarcity of natural resources, we persist with the ideal of "respecting nature for healthy aquaculture" and continue to improve the health and growth of aquatic species by feeding them with advanced nutrition. We believe it is our responsibility to pioneer in R&D and supply advanced aquatic functional feed to the world. Founded in Taiwan in 1974, Grobest has maintained a leading position in the research and development of natural, antibiotic-free feed products for environmentally friendly and sustainable aquaculture. Our continuous success has seen us grow into a company of over 3,500 employees, with offices and operations throughout China, India, Indonesia, Malaysia, the Philippines, Taiwan, Thailand and Vietnam.

Lavazza, Kicking Horse Coffee

Description

Before being served, coffee passes through forty pairs of hands in its journey from sowing to an espresso cup. Behind every one of these exchanges, there is a different culture, a face, a story to be told. 40 Hands is a journey to discover the people who have decided to dedicate their lives to their passion for coffee. The coffee journey follows a path that unfolds through generations and latitudes, united by the same values: "Respect, dedication and responsibility, especially towards nature," says Enrique Mancilla Oyos, a Peruvian farmer who has been working with Lavazza for years. His ancestors processed coffee at Nagazú, but at the time there were no roads, so production was limited to the needs of the family.

Whole Duck Roast Half Duck Duck Breast Duck Legs Duck Appetizers

Description

Four Generations and more than 60 years later, Maple Leaf Farms duck continues to create culinary experiences from the kitchen table to restaurants around the world. Our farm to fork focus and vertical integration ensures that you are getting the tastiest duck in the most sustainable and humane way possible. We knew from the start that treating our ducks right is our top priority. That's why we put care into every step of farming, feeding, and processing. We keep our ducks as happy and healthy as possible at our farms. They eat a healthy balance of grains and veggies and are free to roam in cage free barns. We knew this was a priority from the start, so we developed the first and only duck well-being guidelines with veterinarians and poultry scientists from all over the country. Our Trident Stewardship Program is the leading duck care program in the world.

Description

Marketing Management Inc. (MMI) is a sales and marketing company focused on consumer packaged goods with brand owners and manufacturers of brands. Our suite of services is offered through a collection of companies dedicated to specific functions along the lifecycle of consumer packaged goods. Our focus is not only with new and emerging

brands wanting to gain initial distribution into the marketplace, but also with brands that have successfully entered the consumer retail space, but need assistance in managing their business. We help clients plan for expansion across all of North America, including Canada and Mexico. We can start early in the lifecycle with initial brand development, sales planning and the communication of your product's unique selling propositions (USPs), which we validate through consumer research. Or we can enter the journey after critical distribution has been achieved and your business needs more attention to take advantage of market place opportunities. Whether you are an emerging brand looking to compete or an existing mid-tier relevant brand wanting to expand... our organization can guide you along the journey of success. MMI is YOUR TRUSTED RESOURCE for SUCCESS.

Description

The MarketPlace Limited is a chain of 8 grocery stores located throughout Bermuda. The MarketPlace Limited was originally the Piggly Wiggly and was started in 1939 by the Crisson family. In 1946 the operation was purchased by the Pimental family and in 1950 it again changed hands when it was acquired by Mr. Fernance Perry. The location of the original store has moved many times, from the corner of Parliament & Reid Streets and from there to the corner of Parliament & Church Streets and finally in 1961 it moved to its present home on Church Street opposite the Hamilton Cathedral. In 1960, then owner Mr. Fernance Perry formed a limited liability company, Piggly Wiggly Limited. In 1964 Mr. Perry decided to expand in a westerly direction and built the Somerset Piggly Wiggly Plaza. The following year the decision was made to expand again, this time in an easterly direction, and the Shelly Bay Piggly Wiggly Plaza was built. Nine years later in 1974, the Heron Bay Piggly Wiggly Plaza was completed. In 1977, the Shelly Bay Plaza fell victim to an arsonist and was burned to the ground but within a year was rebuilt and back in operation. In March of 1979, Piggly Wiggly Limited was purchased by Mr. Alvin Ferreira who at the time owned the Modern Mart grocery store on the South Shore Road in Paget and a number of cycle rental companies. In 1981, the name of the four stores were changed to the MarketPlace stores while Modern Mart continued to trade under it's own name. In September of 1987 the company further expanded with the acquisition of the A-1 Grocery Stores, the A-1 in Paget and the A-1 in Smith's. In August 1993, Mr. Alvin Ferreira unfortunately passed away at the age of 50, His wife Pamela took over ownership of the group of companies, which have continued to grow. In June of 1994 the group acquired the property and the operations of the Shopping Centre Limited on

Victoria Street in Hamilton. The MarketPlace Group of Stores are the most modern in Bermuda and in many cases surpass the quality of stores in North America.

Merchant Cost Consulting

Description

Merchant Cost Consulting was founded with the purpose of helping businesses navigate the credit card processing industry. Merchant service fees can be difficult to understand and one of the biggest expenses for business owners to incur. Merchant service providers tend to have numerous hidden fees and surcharges, along with large monthly fees that are meant to be purposely deceitful. MCC was established to become a part of our client's team to handle their merchant service fees to ensure they are always paying a fair and honest price.

Description

The Molson Coors Beverage Company is a multinational brewing company, formed in 2005 by the merger of Molson of Canada, and Coors of the United States. It is the world's seventh largest brewer by volume While the company is incorporated in the United States, it is traded on stock exchanges in both the United States and Canada, and control is equally shared between the Molson and Coors families. The company is headquartered at 1801 California Street, a 1,372,179-square-foot (127,479.6 m²), 53-story building formerly known as the Transamerica Tower in Denver. It occupies 67,000-square-foot (6,200 m²) of space located on the 45th, 46th and part of the 47th floors of the structure.[7][8] Molson Coors expanded significantly after the merger of Anheuser-Busch InBev and SABMiller in October 2016. This was achieved because during the plans for the merger, SABMiller had agreed to divest itself of the Miller brands by selling its stake in MillerCoors to Molson Coors.[9]

Phillips Asian Rhythms Coastal Cuisine

Description

Phillips Foods, Inc. produces blue swimming crab meat and seafood products. As a leading manufacturer of blue swimming crab, Phillips spearheaded the popularity of crab meat across the nation through their ability to perfect the pasteurization process which took crab meat from being a perishable regional specialty to having a refrigerated shelf life of 12 months. With processing facilities all over the world, Phillips ensures a dependable year-round supply of crab meat. Known for award winning crab cakes, Phillips also produces fish and shrimp products as well as an extensive line of frozen seafood soups. With 45 years experience in the restaurant and food service industries, Phillips has proven its dedication to culinary excellence for its customers and consumers.

Description

Inspired by the need for a collective voice of the plant-based foods industry and representation in government, The Plant Based Foods Association was created in 2016 by our founding board members, Jaime Athos, Martin Kruger, Nicole Sopko, Miyoko Schinner, and Michael Lynch, and founding executive director, Michele Simon. The Plant Based Foods Association officially launched at Natural Products Expo West with 23 member companies in March of 2016. The board, founding executive director, and these 23 brands were the pioneers of PBFA. Each company believed in the path of exponential growth and vision of the plant-based foods industry, and this created the foundation for PBFA's post-launch accomplishments and current successes.

Presto solution for Pricing, Promotion, Assortment, Placement, and Personalized Offers.
AI Accelerator - Kai for Merchandising, Category Management, Store Ops and Finance

Description

Pristine offers an action plan using its integrated solution platform for making recommendations across all merchandising areas - Everyday Pricing, Mass Promotions, Markdown or Clearance, Personalized offers, Assortment, Supplier Collaboration and provides Total Business Forecasts for Sales, Gross/Net Margins and Units. Pristine is the only company that takes an integrated, holistic approach to all pricing investments as siloed actions do not provide a complete picture or the returns on investments. Our integrated solution is designed to not only maximize pricing and promotion decisions, but to more broadly help retailers set a more powerful, differentiated value equation to attract more customers and to grow engagement of current customers. In short, Pristine is in the business of bringing customers to you. Pristine has launched AI Accelerator, called Kai, that is truly revolutionary. It answers business questions, send alerts, offers options and action plan to empower decision makers. Retailers will agree that business analysts, managers spend hours and days to create business review plan for a category, division or get answers to business questions that require immediate answers, options etc... Pristine's Kai is an answer for all merchandising, category management to finance and store ops.

Remedy Kombucha and Remedy Energy

Description

We could tell you that when Sarah and Emmet Condon started Remedy in their kitchen in Melbourne, Australia, they had no idea what lay ahead. But we'd be lying. They had an inkling. It all started with some home-brewed kombucha. Their kids were into it. Their mates were hooked. Family members were dropping by more often for a taste. So, they took a chance. Some might call it a massive risk. They had a young family. No jobs to fall back on. Some savings, a couple of credit cards. Entrepreneurial know-how, but no

experience in the food and drinks world. What they did have was big aspirations and a simple belief. They wanted to do something good. Shake things up. They knew that healthy didn't have to be boring. Healthy could be tasty. Extraordinary, even. They believed we all deserve to know that too.

See, we got bored with the food conversation: too scientific, too complex. Yawn. Let's talk about the joy of simple and well-prepared food. Let's go to tastytown. Let's get together at the kitchen table and change those mealtime woes into mealtime wows.

Description

Retail Insight is a leading provider of in-store execution software for grocery retail. We help retailers tackle some of their biggest challenges, including product availability, food waste management, labor productivity, and phantom inventory. We believe that successful solutions are built on a fundamental understanding of the nuances and complexities that come with the retail industry. This is why we use cognitive technology; the augmentation of human subject-matter expertise and analytics with advanced mathematical techniques. Our software solutions ingest a retailer's foundational data to surface actions for your in-store teams as well as provide all-level reporting. As a result, we seamlessly integrate with your existing tech stack, require little IT investment or change management, supplement existing inventory and ordering systems and carry little to no capital investment. As a result, we now work with many of the world's leading grocery retailers and CPGs.

Description

Two of the most trusted household brands, Reynolds® and Hefty®, joined together as Reynolds Consumer Products in 2010. While the establishment of this new company made it official, the truth is that Reynolds® and Hefty® products have been found side-by-side in the kitchens of American families for more than three generations. The creation of both the Reynolds® and Hefty® brands is the direct result of American ingenuity mixed with a bit of elbow grease. Reynolds Wrap® foil was invented after aluminum was no longer needed for military use; and became a new staple for American kitchens. Hefty® waste bags were first developed with excess material from an early plastics innovator, creating another household essential.

Description

We are a family of land-based farms...one that takes precautions to protect wild salmon and trout, and our environment. By producing eggs and fish on land in pure spring water, we're able to deliver high quality, sustainable products with minimal environmental impact. On our fish production side, being land-based means no escapes, no microplastics, no PCBs, year-round consistency, and an ability to monitor our aquatic environments with ultimate control. Our job: to take good care of the resources we have, to do more with less, and to provide a safe, premium food source that will serve humanity for generations to come.

Suppliers and retailers, both traditional and web, face a highly competitive and rapidly changing world. RSi has market leadership in marshaling available data, applying innovative analytics, and returning value with actionable insights every day. Insights range from rigorous analysis of web promotions, daily out-of-stock alerts delivered directly to store personnel chainwide and the massive task of cleansing and harmonizing fine grain sales and supply chain data from 225+ different retailers around the world. Our goal is to bring operational clarity for our customers, both suppliers and retailers, so that they can operate their business more successfully. For thirteen years we have been a trusted, massive data and analytics based provider to many major CPG manufacturers and have built supplier partnerships for a number of major retail chains.

Ruby's Pantry

Description

As hundreds of people gather in churches or other locations, they have one thing in common. They are gathering to get food at a Ruby's Pop-Up Pantry. Ruby's Pantry is for ANYONE that eats! There is no income or residency requirement and Ruby's Pantry is for anyone looking to extend their monthly grocery budget. Each guest donates a \$25 donation and receives an abundance of grocery items. Ruby's Pantry is not government funded and is a 501 C3. Each donation is used to cover operational costs like trucking, gas, and warehouse staff. All of the food is donated by corporate food donors making it

possible to reach more families each month at locations across Minnesota, Wisconsin, North Dakota and Iowa.

Description

For Us, Pork Rinds are a Family Affair. Our commitment to excellence has been passed from generation to generation. In 1955, John Rudolph learned of an untapped market for pork rinds and the Ohio entrepreneur quickly launched his own company producing pork rinds from smoked bacon rinds. And we've remained the family's namesake brand of pork rinds for nearly 70 years!

Description

When you've been in business for over 150 years, you learn a lot. From our beginning in 1866 as a prescription apothecary shop, founders Augustus G. Schlotterbeck and Charles S. Foss earned a reputation for quality handcrafted products and fair dealings. They maintained these principles when they moved on to develop patented medicines and flavoring extracts in the 20th century. In the 21st century we have kept with tradition and

emerged as a leader in the private label, premium sauces, marinade and condiments' space. Our core competency in product development supports our proprietary small batch manufacturing capabilities, resulting in marquee specialty foods. Our unmatched product development, using our selection of organic, clean label and non-GMO ingredients allows us to offer highly differentiated, innovative products that drive consumer loyalty. Through the evolution of the company we have not changed our high standards, attention to detail and quality products. Our fudges are made of the finest Dutch cocoas and our coffees from specialty roasted beans grown around the world. The fruits and vegetables in our sauces and salsas are the freshest available and, whenever possible, organic. The seasonings and spices we choose for our dressings, grilling sauces, mustards and marinades are all-natural. Though others may try to imitate our flavors, the main missing ingredient is always experience. No one in the industry does it better, because no one has done it longer. So indulge yourself in our products and discover why we've been pleasing palates for over 150 years.

Description

VusionGroup is a world leader in smart digital labels and IoT solutions for physical retail, serving over 350 large retailer groups around the world in Europe, Asia and North America. VusionGroup has developed the VusionLive Retail IoT platform to help retailers transform their physical stores into high value digital assets, more automated, data-driven, and connected in real-time to suppliers and consumers. VusionLive improves the agility, precision and accuracy of prices, whilst ensuring the omnichannel synchronization of prices, product information and marketing campaigns. The platform developed by VusionGroup also optimizes in-store order preparation and restocking. VusionLive improves employee satisfaction by freeing up time from cumbersome low value-added tasks and allowing them to focus on customer service and merchandizing tasks. VusionLive connects shelves to the Cloud, providing real-time accurate information on product availability and location, allowing for reduced inventory, out-of-stock, and waste, as well as improved on-shelf availability and merchandizing compliance. VusionLive empowers consumers with better product, nutritional and traceability information at the shelf and enables a frictionless in-store shopping experience with features such as product search, pathfinding and cashier-less scan & pay features. VusionGroup supports the United Nations' Global Compact initiative and has received in 2022 the Platinum Sustainability Rating from EcoVadis, the world's reference of business sustainability ratings. Southern hospitality. Silicon Valley tenacity. Nationally recognized. Our caring nature and innovative spirit runs deep in who we are and what we believe. We're more than delivery. We go beyond bringing the things people need - to building positive and personal relationships that last. Whether it's taking the time to get to know our members, coming together as a team to make shoppers feel extra appreciated, or authentically representing ourselves and our partners — we spark connections that show every person counts. That's how a simple delivery can feel like so much more.

Description

Sifter Solutions' Shop By Diet technology bridges the gap between shoppers' health priorities and your food assortment. Food retailers can now scale highly customized "food as medicine" programs that increase basket size and customer loyalty by personalizing the shopping experience. Shop By Diet automates grocery product eligibility at the UPC level — with precision, speed, and transparency — against a shopper's multi-variable diet profile, no matter how complex. We also offer Scan By Diet, which can be easily activated within your mobile app for shoppers to find matching products in store. The full suite of Sifter tools, including recipe customization by diet, can be integrated into client platforms through dynamic APIs or turnkey white-label implementation. Supporting better health is good business — and Sifter Solutions makes healthy the easy choice.

Description

Our journey began in 2015, when our founder's consulting firm, Bianix Technology, won a contract to solve the item onboarding challenge at Canada's largest retailer, Loblaw Companies Ltd. We revolutionized item setup at Loblaw, reducing time to onboard new items from weeks and months to 1-3 days, generating over 30 million dollars annually in increased profit, and millions more in cost savings. Inspired by this success, we decided to bring our solution to the world. In 2017, we launched Simplista, an agile, intelligent, API-centric SaaS platform designed to streamline trade between retailers and their supplier partners.

Description

In 1999, the Southeast Produce Council (SEPC) was formed by six members who had a vision for a Southeastern-based produce organization. The members met at the Atlanta Farmer's Market in August 1999. The first formal meeting of the Southeast Produce Council was held in Charlotte, NC with 100 produce professionals from across all areas of the industry in attendance. An innovative produce organization emerged which has grown to over 2500 members and is continuing to grow at a steady pace. Today, the council stands behind its Vision, Mission, Values, and Goals.

Description

Spoiler Alert is a B2B software company for CPG brands to manage sales of excess and short-dated inventory, recover value and increase sustainability. Working exclusively at the manufacturing plant or distribution center level, Spoiler Alert offers a best-in-class sales platform that enables CPG brands to automate their discounting processes across a private network of discount retailers and nonprofit channels - with a heavy focus on maximizing value recovery, strengthening customer relationships, and increasing the effectiveness of CPG teams tasked with minimizing inventory write offs. Founded by alumni of MIT, Spoiler Alert works with some of the world's largest brands, including Campbell's, Danone, HelloFresh, KeHE Distributors, and Kraft Heinz, along with a growing network of discount channels committed to increasing affordable food access. The company is backed by some of the nation's leading food, agriculture, technology, and supply chain investors, including Maersk - the global leader in supply chain and logistics.

Our leadership team brings decades of experience across enterprise software, supply chain management, ecommerce, and data analytics within the CPG and retail industries. We are Friends of WRI's Champions 12.3 (the industry's leading stakeholder group committed to corporate food waste reductions), are members of ReFED's Expert Network, Pledge 1%, Climate Collaborative, and regularly contribute to the national dialogue around waste prevention and supply chain innovation - including through our affiliation with the Walmart Food Safety Collaboration Center. Spoiler Alert is a winner of the 2022 Food Logistics Top Software & Tech Awards, ECR Top 30 Innovations in Food Waste 2022, The FoodTech 500, Tracxn Emerging Startup 2022, and Built In Boston's 22 Startups to Watch.

Description

Sugar Beet Food Co-op has been in the works by owners of the community since the beginning of 2012. A group of folks from northeast Oak Park came together and decided that Oak Park and surrounding communities needed something new: a full-service, co-op grocery store that would provide a neighborhood source for local, sustainable, healthy foods and a way of connecting farmers and producers to their customers.

Description

We've been in your shoes. We've experienced your frustration. The Allan Sullivan Co. was born when we set out to change it. We built the brokerage to provide the value we wish we got when we were in your position. Over the course of our careers, we've led everything from category and trade marketing to national account teams and business units in excess of \$1B. We've been on the manufacturer side of the table and the retailer side of the table. We've been at large multinationals and small startups. No matter where we were, we kept being underwhelmed by the quality of the manufacturers reps we ran into. Even the ones we hired - we were always left wanting more. How was it possible that such a critical part of the value equation could come up so short so often?

Description

Our founder, Phil Werdal, started out working in Alaska's seafood industry in 1970. Over time, he discovered a vast information gap between the people who catch and process fish and those who buy and eat it. He found that consumers are often left wondering what the seafood product actually was and where it came from. Phil believed traceability was the solution to fill that information gap and started Trace Register in 2005, bringing together a team with a depth of experience in the seafood industry and technology.

Description

Tusan Commodities was created in 2017 by Daniel Tuta. After 13-years of experience in the food industry, Daniel decided that it was time to capitalize on his proven success, expertise, and well-established industry reputation by going into business on his own. Daniel started his career working for General Mills and Tia Maria Bakery in the early 2000s where he learned how to place products on the shelves for a variety of retailers and gained food production experience. He continued his career at Sherwood Foods as a Buyer. Soon after, he worked 2-year for Colorado Boxed Beef, where he mastered both areas of expertise, buying and selling commodities. This experience led him to a successful 8-year career with Signature Foods. At Signature he managed the procurement and sales department, further developed the Pick-5 business brand and expanded and grew the company's IQF chicken product line, domestically and internationally. Daniel became the most successful sales employee within Signature Foods.

Description

UEP's first organizational meeting was held in Chicago on November 12, 1968 at which time egg producers from across the U.S. recognized the need for a regional cooperative organization to address the needs of the industry. Thus, five regional offices were created: Midwest UEP, Southern UEP, North Atlantic UEP, West Coast and Northwest United Egg Producers. A federated Capper-Volstead Agricultural Cooperative was structured with membership available to producers who are engaged as a farmer in the production of table eggs. Membership is also available to owners of breeder flocks, hatcheries, pullets growers, contract egg producers, and farm cooperatives that meet the requirement of owned or leased facilities. In October 1998, the by-laws of UEP were amended thereby changing the organization to a direct member organization.
