

FOOD ALLERGY AWARENESS!

WHAT TO KNOW!

A food allergy is an abnormal response to a food triggered by the body's immune system. Once exposed to the allergen, the allergic individual can suffer a mild to life-threatening reaction. The only control is avoidance of the food. Despite taking precautions, allergic people may be unknowingly exposed to an allergen.

Approximately 11 million Americans suffer from true food allergies. Be prepared to protect your customers. Know the eight major food allergens and the symptoms of an allergic reaction.
