

## **Merchant ID Information**

The merchant ID (or card acceptor ID) numbers and BINs associated with Class Members' Estimated Cash Payments are now available on the case website at

[www.inrevisacheckmastermoneyantitrustlitigation.com](http://www.inrevisacheckmastermoneyantitrustlitigation.com).

This feature will make it easier for Class Members to verify the accuracy and completeness of their Estimated Cash Payment and to make an informed decision to accept or challenge their estimate -- by enabling Class Members to view the purchase volume and individual store location detail that was used in calculating their estimate.

Class Members can access their information via a secure connection by clicking on "Personalized Detailed Explanation of Your Individual Estimated Recovery" at the home page, then by entering their claim and control numbers located on the claim forms that contain Estimated Cash Payments (or VM1 claim forms), and finally by clicking on "Consolidation Detail" for the information needed to determine which locations are included in the estimate on each VM1 claim form.
