Company Description: We are a family of land-based farms...one that takes precautions to protect wild salmon and trout, and our environment. By producing eggs and fish on land in pure spring water, we're able to deliver high quality, sustainable products with minimal environmental impact. On our fish production side, being land-based means no escapes, no microplastics, no PCBs, year-round consistency, and an ability to monitor our aquatic environments with ultimate control. Our job: to take good care of the resources we have, to do more with less, and to provide a safe, premium food source that will serve humanity for generations to come.
