Brief Overview of Services

Label Insight

L A B E L I N S I G H T.

SERVICES: Data Management Vendor; Attribute/Content Capture & Aggregate; QR Code Generation, Landing Pages Development, Hosting & Distribution.

COMPANY DESCRIPTION: Label Insight was founded with the purpose of empowering consumers with the knowledge to make better product choices and understand what's in the products they use and consume. When it comes to SmartLabel®, you could say transparency is in our DNA. Many of our customers tell us that getting started with SmartLabel® feels overwhelming, but Label Insight makes SmartLabel® participation and integration seamless and efficient with our end-to-end, fully automated SmartLabel® solution, LabelSync™. LabelSync is the industry's most comprehensive solution for data transformation, content enrichment and SmartLabel page management, delivering product transparency to your consumers and meeting your compliance needs. LabelSync offers a turnkey solution for brands to maintain digital product data synchronization across all devices as product features, formulations, packaging and marketing evolve over time. Leading CPG brands have already realized just how easy it can be with both large and small scale implementations. Label Insight's solution takes you from package flat to SmartLabel compliance in as little as 24 hours by automatically mapping 100% of the required SmartLabel® attributes, removing the need to manually input data. We then enable our custom API to populate landing pages and product detail pages on your [brand.com](https://www.brand.com) site, configure custom links through QR code technology, and integrate directly into your PIM or data syndication system through our end-to-end solution in accordance with SmartLabel® requirements.
