Doers take pride in crushing a goal; closing a sale; making a customer happy; and delivering ahead of schedule.

Doers don't waste time and don't risk results — they do more with less.

We see a world where the doers do less work about work, and have more time for important things — on and off the clock.

Always driving forward and taking pride in what they've accomplished.

We believe in the doers, because we are doers, too. We are customer-obsessed; execution-oriented; growth-minded, and passionately curious.

And we build great products for the doers of the world, so they can do what they do best: Great Work.

Our farm to fork focus and vertical integration ensures that you are getting the tastiest duck in the most sustainable and humane way possible.

We knew from the start that treating our ducks right is our top priority. That's why we put care into every step of farming, feeding, and processing. We keep our ducks as happy and healthy as possible at our farms. They eat a healthy balance of grains and veggies and are free to roam in cage free barns. We knew this was a priority from the start, so we developed the first and only duck well-being guidelines with veterinarians and poultry scientists from all over the country.

Our Trident Stewardship Program is the leading duck care program in the world.

The California Difference

As the only 100% California-owned, family-run full-line olive business in America, the Musco Family Olive Company is known for outstanding, uncompromising quality. Our supply chain has been the same for decades, anchored by long-term relationships with multi-generational California farmers. Our black ripe olives are sourced from over 450 California growers — each one a valued member of our extended family. Our process is completely transparent, resulting in consistently superior-quality olives from tree to table. Our competitors, on the other hand, mix and match different types of olives from a variety of countries, resulting in inconsistent textures and flavors.

We visit farms and ranches and look at their plants, animals, and records, and compare all of the information we collect to specific standards or claims they want to make about how they are producing food. We strive each and every day to ensure that everyone involved in the food business—from growers and farmers to retailers and shoppers—can count on Where Food Comes From, Inc., to provide authentic and transparent information about the food we eat and how, where, and by whom it is produced.
