Products / Services: Refrigeration

Company Description: Innovation and a focus on the future since 1983. AHT Cooling Systems GmbH has been operating successfully in the field of commercial refrigeration for more than 30 years. During this time, our ceaseless pursuit of innovation has allowed us to continuously push the envelope in our industry for the benefit of our customers – today and in the future.

At the AHT headquarters, the heart of our company, our cutting-edge cooling systems are designed and produced on a production area of more than 60.000 m2. More than 200.000 units leave our headquarters every year.

We are one of the world leaders in our main area of business – the production of plug-in coolers and freezers for the commercial sector. Our systems are delivered to all major global discounters and supermarket chains as well as a number of renowned producers in the ice-cream and drinks industry via successful partnerships. Our overarching philosophy is built on the pillars sustainability, energy efficiency, innovation and maximum customer benefit.

Our awareness for quality and environmental consciousness is not only confirmed by our ISO certifications 9001 (Quality management) and 14001 (Environmental management) – we live it continuously through our resource-conserving production processes and ecologically-minded products, every single day; for we will always strive to fulfill the high expectations our customers have in our products and the brand AHT.

Website: <https://experiencearc.com/Chargeitspot.com>

Products / Services: Security Systems & Products; Technology Services

Company Description: ARC solves operational challenges faced by companies who have large investments in handheld devices (i.e., devices by Zebra, Honeywell, etc.), which associates use to be productive for tasks like package/baggage scanning, inventory check, mobile PoS, etc. We've learned from clients that managing handheld devices is a nightmare -- they're experiencing surprisingly high device shrink, wasted time managing manual processes, and lost productivity when devices stop working, go missing, or batteries die.

ARC is a device management solution integrated with smart lockers to store, secure, and charge these company-owned handheld devices. ARC reduces device shrink, hits to productivity, wasted payroll time consumed by managers, and the number of faulty devices in circulation.

Operating since 1987, Chesapeake Spice, a family-owned business, has flourished by advancing technology, hiring key personnel with industry knowledge and experience, and continually expanding and improving both manufacturing facilities which are located strategically on the east and west coasts.

The world is our marketplace and we travel the globe visiting spice farms, examining crops and establishing long-term relationships with farmers to procure the best raw materials available. Whether you are purchasing spices or seasoning blends, this direct sourcing gives us a distinct and competitive advantage that allows us total control in our process, from the fields to your finished products. Such control ensures a consistent and reliable supply chain, as well as the ability to gather valuable market information to share with you, our customers.

Chesapeake's commitment to quality is relentless and extends beyond the Quality Team. Management promotes proactive Quality Assurance that empowers and encourages all employees to take ownership, ensuring a continuous improvement program. We participate in the Global Food Safety Initiative and are BRC-certified.

Chesapeake is proud and committed to offer exemplary customer service, with knowledge, experience and dedication to understand your needs. We offer rapid sample turnaround along with providing immediate response to your document requests. We cater to a diverse customer base where no project is too small and no order is too big.

Chesapeake Spice is rich with experience and knowledge, and that is a major part of what defines us as a company. We approach our business with excitement and enthusiasm and are proud of the products that we make and how we make them. We want to share our enthusiasm with you!

Company Description: Because we believe in doers — the ones who take action and get the job done. The ones who change companies and industries forever.

Doers take pride in crushing a goal; closing a sale; making a customer happy; and delivering ahead of schedule.

Doers don't waste time and don't risk results — they do more with less.

We see a world where the doers do less work about work, and have more time for important things — on and off the clock.

Always driving forward and taking pride in what they've accomplished.

We believe in the doers, because we are doers, too. We are customer-obsessed; execution-oriented; growth-minded, and passionately curious.

And we build great products for the doers of the world, so they can do what they do best: Great Work.

Company Description: Having a more than 50 years' experience in the starch products production Interstarch Ukraine strives to be a reliable partner. Our goal is to provide world-class products — on time, within budget, and in accordance with the specification.

As a manufacturer and supplier of ingredients for the food and non-food industry, Interstarch Ukraine offers a wide range of products. More than 40 types of products obtained by processing corn and wheat: native and modified starches, glucose, maltose and glucose-fructose syrups, gluten-free bakery mixtures, corn and wheat gluten, corn oil, ingredients for feed production, and a full range of starch products according to individual customer specifications. The main areas of usage are the production of food, animal feed, and industrial products. Interstarch products are regularly tested by production and independent laboratories to ensure stable quality and meet food safety requirements.

For processing, we use high-quality raw materials, grown in accordance with international standards, and also have additional demands and carry out additional control. Interstarch Ukraine constantly cooperates with a number of reliable partners — agricultural enterprises with a common land bank of more than 50 thousand hectares, which allows us to control the full cycle from sowing to harvesting grain. Our annual volume of processed corn and wheat is more than 600 thousand tons per year.

Company Description: Before being served, coffee passes through forty pairs of hands in its journey from sowing to an espresso cup. Behind every one of these exchanges, there is a different culture, a face, a story to be told. 40 Hands is a journey to discover the people who have decided to dedicate their lives to their passion for coffee. The coffee journey follows a path that unfolds through generations and latitudes, united by the same values: "Respect, dedication and responsibility, especially towards nature," says Enrique Mancilla Oyos, a Peruvian farmer who has been working with Lavazza for years. His ancestors processed coffee at Nagazú, but at the time there were no roads, so production was limited to the needs of the family.

Company Description: Growing for a kinder future
Imagine breaking from tradition to ensure a brighter future for generations to come. At Nature Fresh Farms®, we're committed to nourishing people and the planet through greenhouse farming.

Since 1999, our family-owned company has sought a simple yet profound goal: To cultivate a kinder, healthier future. And decades later, we've become one of North America's largest vertically integrated leaders in greenhouse-grown produce. We're growers, for sure, but in more ways than one – greenhouse builders, plant nurturers, and partners with like minds and kindred spirits.

Our vision goes far beyond our current accomplishments ... we are committed to innovation and conservation, to reduce waste and promote biodiversity, and to create a friendlier future for all.

Company Description: Since our founding in 1971, Nihon Shokken Group has accomplished continuous growth and has become internationally distinguished. As we continue to expand, we aspire to promote the development of “deliciousness” and “convenience” in food culture through the research, production, and sales of sauces and seasonings. Nihon Shokken Group began American operations in 1988 with opening its Los Angeles Sales Office in Torrance, California. As a subsidiary of Nihon Shokken Holding Co. Ltd., the company initially imported and distributed sauces and seasonings made in Japan throughout the U.S. Great reception of our products allowed our company to open other branches nationwide which encouraged the foundation of Nippon Shokken U.S.A. in 2006. In April 2013, after being captivated by the beauty of the region’s resources and surrounding food culture, the newly named company established roots locally through building a new manufacturing facility in West Sacramento and started domestic production of products in June 2013. From this 70,000 square foot head office and plant, we produce fresh, high quality products for our valued customers as we embark on furthering and delivering new innovations to food culture in the U.S.

How it works
Each OSMG partner serves as an independently-owned regional broker, with personal relationships and familiarity with their specific accounts in their region of the country.

When you decide that you want nationwide coverage, the partners join together seamlessly to create one cohesive broker - On Shelf Marketing Group (OSMG).

The same time and dedication you would receive in a local setting is applied throughout the nation.

Company Description: Retail Insight is a leading provider of in-store execution software for grocery retail. We help retailers tackle some of their biggest challenges, including product availability, food waste management, labor productivity, and phantom inventory.

We believe that successful solutions are built on a fundamental understanding of the nuances and complexities that come with the retail industry. This is why we use cognitive technology; the augmentation of human subject-matter expertise and analytics with advanced mathematical techniques.

Our software solutions ingest a retailer's foundational data to surface actions for your in-store teams as well as provide all-level reporting. As a result, we seamlessly integrate with your existing tech stack, require little IT investment or change management, supplement existing inventory and ordering systems and carry little to no capital investment.

As a result, we now work with many of the world's leading grocery retailers and CPGs.

THE
ALLAN
SULLIVAN
COMPANY

Products / Services: Consulting Services; Technology Services

Company Description: We've been in your shoes. We've experienced your frustration. The Allan Sullivan Co. was born when we set out to change it. We built the brokerage to provide the value we wish we got when we were in your position.

Over the course of our careers, we've led everything from category and trade marketing to national account teams and business units in excess of \$1B. We've been on the manufacturer side of the table and the retailer side of the table. We've been at large multinationals and small startups.

No matter where we were, we kept being underwhelmed by the quality of the manufacturers reps we ran into. Even the ones we hired – we were always left wanting more. How was it possible that such a critical part of the value equation could come up so short so often?

Company Description: Where Food Comes From, Inc., is an independent, third-party food certification and verification company. To put it simply: We are the ultimate food nerds! We care about food, how it's grown and raised, the quality of what we eat, what farmers and ranchers do, and authentically telling that story to you.

We visit farms and ranches and look at their plants, animals, and records, and compare all of the information we collect to specific standards or claims they want to make about how they are producing food. We strive each and every day to ensure that everyone involved in the food business—from growers and farmers to retailers and shoppers—can count on Where Food Comes From, Inc., to provide authentic and transparent information about the food we eat and how, where, and by whom it is produced.
