Company Description:	ALL-TAG is an American manufacturer of Anti-Theft products that help retailers reduce common and ORC theft while boosting sales. We are the market leader in customizing products to include individual store specific information to aid in the recovery and return of stolen merchandise. These products are virtually impossible to remove from merchandise packaging, and will permanently damage the packaging if they are forcibly removed. Retailers can protect their merchandise while making it accessible to shoppers, which is critical for maximizing sales. The cost of these products is extremely low when compared to lock boxes, keepers, spider wraps, shelf protectors, etc. All of these factors lead to a quick and substantial ROI. ALL-TAG manufactures RF Labels in their South Florida facility, and is a leading supplier of AM labels. Top retailers and their Source Tagging partners around the world are using ALL-TAG RF and AM Labels to protect their merchandise. Veesion Pro, also provided by ALL-TAG, is intelligent video surveillance software that continuously analyzes any retailer’s cameras. The software automatically detects suspicious shoplifting behavior and gestures in real time with algorithmic analysis of video footage. A video notification is immediately sent to store personnel providing the retailer an opportunity to prevent theft and ORC while it is happening. Veesion is an enhancement to any video surveillance system as it is the equivalent of having a set of eyes on every camera in a retail store. Furthermore, it does so for the fraction of the price of a video room monitor and with much greater accuracy.
