## **Description**

Afresh is the world's leading fresh technology company helping grocers make smarter decisions throughout their fresh supply chain, ultimately increasing profits and significantly reducing food waste. Success in fresh relies on making good decisions with incomplete, ever-changing, and uncertain information — realities inherent and inevitable in fresh grocery. Legacy systems and practices for managing fresh inventory are not built to recognize or respond to this reality. Many grocers today are stuck betting their most strategic category on brittle technology and convoluted labor practices, leading to increased costs and reduced quality for consumers. With Afresh's built-for-fresh approach, more than 3,000 stores are seeing incredible results, on average: +3% sales increase +20% improvement in labor efficiency -25% shrink reduction -80% stockout reduction +7% faster inventory turns Learn more at [www.afresh.com](http://www.afresh.com)

### **Brands**

ALL-TAG manufactures and supplies their own brand of Sensormatic AM and Checkpoint RF compatible Labels, Hard Tags, and other anti-theft solutions.

### **Description**

ALL-TAG is an American manufacturer of Anti-Theft products that help retailers reduce common and ORC theft while boosting sales. We are the market leader in customizing products to include individual store specific information to aid in the recovery and return of stolen merchandise. These products are virtually impossible to remove from merchandise packaging, and will permanently damage the packaging if they are forcibly removed. Retailers can protect their merchandise while making it accessible to shoppers, which is critical for maximizing sales. The cost of these products is extremely low when compared to lock boxes, keepers, spider wraps, shelf protectors, etc. All of these factors lead to a quick and substantial ROI. ALL-TAG manufactures RF Labels in their South Florida facility, and is a leading supplier of AM labels. Top retailers and their Source Tagging partners around the world are using ALL-TAG RF and AM Labels to protect their merchandise. Veesion Pro, also provided by ALL-TAG, is intelligent video surveillance software that continuously analyzes any retailer's cameras. The software automatically detects suspicious shoplifting behavior and gestures in real time with algorithmic analysis of video footage. A video notification is immediately sent to store personnel providing the retailer an opportunity to prevent theft and ORC while it is happening. Veesion is an enhancement to any video surveillance system as it is the equivalent of having a set of eyes on every camera in a retail store. Furthermore, it does so for the fraction of the price of a video room monitor and with much greater accuracy.

## **Description**

Allegiance / Foodtown, is a Retail Services entity which provides Merchandising, Marketing and Technology expertise to its twenty co-op members which operate some 85 stores in three northeast states. Our Member stores (which trade under the Foodtown; D'Agostino's; Freshtown and LaBella Marketplace banners) are diverse in their size, and the neighborhoods / customer demographics they service. As Independent Retailers, we take great pride in aligning ourselves with the food needs of the neighborhoods we service, and in providing great customer service and the highest quality perishables. With sales of \$1.0 bil annually, servicing a densely populated landscape of New York, New Jersey and Pennsylvania, the store growth opportunity is significant. The footprint of our primary supplier - C&S Wholesale - the largest wholesaler in the US, again allows us the scale required to grow the store-base and co-op membership. The Foodtown banner will soon be celebrating its 60th year.

ARC

## Description

ARC solves operational challenges faced by companies who have large investments in handheld devices (i.e., devices by Zebra, Honeywell, etc.), which associates use to be productive for tasks like package/baggage scanning, inventory check, mobile PoS, etc. We've learned from clients that managing handheld devices is a nightmare -- they're experiencing surprisingly high device shrink, wasted time managing manual processes, and lost productivity when devices stop working, go missing, or batteries die. ARC is a device management solution integrated with smart lockers to store, secure, and charge these company-owned handheld devices. ARC reduces device shrink, hits to productivity, wasted payroll time consumed by managers, and the number of faulty devices in circulation.

### Description

ASDA Group offers shoppers everything from frankfurters to diamond rings. Owned by Wal-Mart Stores, ASDA is the UK's second-largest food retailer (behind Tesco). It operates nearly 250 large stores (averaging more than 55,000 sq. ft.) that primarily sell groceries and apparel. The stores also sell CDs, books, videos, and items for the home. It offers American, Chinese and Mexican take-away meals. Since being bought by Wal-Mart, ASDA has set off a price war in the UK by initiating Wal-Mart's aggressive "price-rollback" program and converting about 10 stores to Wal-Mart's supercenter format under the ASDA-Wal-Mart banner. ASDA's Gazeley unit develops property.

## Description

Associated Food Stores, Associated Supermarkets or Associated, is the largest group of independently operated supermarkets based in the New York metropolitan area. Associated Supermarkets provides services to a network of over 260 independent grocery retail stores, many located in New York City. Associated Supermarket Group provides retail solutions to independently owned grocery stores in the Northeast and Mid-Atlantic regions, providing distribution, marketing, merchandising, promotional services, and store financing. A relationship with ASG allows independently owned and operated stores to take advantage of the economies of scale normally available only to larger supermarket chains. ASG's supermarket banners include Associated, Associated Fresh, Compare, Compare Fresh, Met Foods, Met Fresh, Pioneer, and other independently named stores.

Bumble Bee® Foods was founded by a handful of dedicated canners back in 1899. As a company Bumble Bee® has grown more than our founding fathers would have dreamed. Bumble Bee employs over 1,000 hard working men and women and is an international company selling canned tuna and salmon throughout the world under the Bumble Bee Label and in Canada under the Clover Leaf brand name. Bumble Bee has canning facilities in Mayaguez, Puerto Rico; and Santa Fe Springs, Ca. Over the years Bumble Bee has transformed its plants from labor intensive production lines to automated lines. By keeping up with today's technology, Bumble Bee is able to provide a quality product at a competitive price. When consumers see the "Bee" on a canned seafood product, they can be assured it means premium quality seafood. Quality is not all the Bumble Bee brand name stands for, Bumble Bee also stands for variety. Our famous "Bee" can be found on a variety of premium quality seafood products. The Bee is on canned crab meat, shrimp, oysters, clams and of course Bumble Bee best sellers albacore and salmon. Bumble Bee is a full service seafood provider!

## Description

Our founder Mike Salguero was first introduced to 100% grass-fed beef through a local farmer who sold ¼ and ½ shares of cattle. After trying it, he was instantly hooked. He preferred the more natural taste and was thrilled to discover the many health advantages grass-fed beef has over ordinary grain-fed beef. So his question became, "why isn't everyone eating this?" After doing some research, he discovered that not everyone has access to grass-fed beef, and even if people have access, their selection is often limited to just ground beef. This helps explain why just 1% of the total beef consumed in the United States is 100% grass-fed. Our goal is to make grass-fed beef more accessible than

ever before.

### **Description**

Close to fifty years ago Axel Brix, our company founder, began making his own food deliveries around town just outside of Chicago. Axel, who immigrated to the U.S. from Denmark in 1958, grew up with his father's butcher shop in the small town of Farso, Denmark. As the butcher shop evolved and grew in Denmark, so did Axel's small company here in the United States. Today, CKF Foods Inc. distributes food globally and is an established international importer and exporter of various foodstuffs. We concentrate on providing larger wholesalers and distributors with a variety of diverse food from all

around the world.

## **Description**

Clearwater Seafoods is one of North America's largest vertically-integrated seafood companies with over 1,900 employees in offices, plants and vessels around the world. The Bedford-based company operates from 'ocean to plate', owning its own fishing quotas, vessels and processing facilities, while also providing delivery to its customers worldwide. Clearwater is recognized globally for its superior quality, food safety and diversity of premium wild-caught seafood, including scallops, lobster, clams, coldwater shrimp and crab. As a leading harvester, processor and marketer of sustainably-sourced seafood, Clearwater supplies its products to wholesalers, retailers and foodservice distributors throughout the world. Selling its products globally under both the Clearwater and private label brands. Since its founding in 1976, Clearwater has invested in its resource ownership and management to sustain and grow its wild seafood resource. This commitment has established Clearwater as a global leader in sustainable seafood excellence. In 2015, Clearwater Seafoods acquired the Scotland-based Macduff Shellfish Group, bringing together two of the world's leading and fastest growing vertically-integrated wild shellfish harvesters. Macduff's product portfolio closely complements Clearwater's product offerings with King and Queen scallops, langoustine, brown and velvet crab, and whelk.

## **Description**

We reach hard-to-reach affinity groups like Latinas or Millennials. We drive traffic via inspiring real life product stories promoting new items. We amplify demos to spike sales outside the 4-6 hour demo period. We make new store openings incredibly successful. And we do all this by using social media to solve shopper marketing problems. CB harnesses the power of social content through our community of geographically and demographically diverse social influencers who have micro audiences centered on specific affinities and passions. They have incredible reach and their content generates high levels of engagement with value-conscious shoppers; this content gets deployed across all social channels and initiates two-way conversations directly with customers to influence purchase decisions. This is shopper social media and CB is the only one who does it.

Established in 1918 by its founder Mr. Mario Dorin as manufacturer of mechanical tools and machines, air compressors, liquid pumps and service centre for vehicle engines, OMD in 1932 focused on production of refrigeration compressors and their systems. Soon this became the major field of work of the company. The genius of the Founder together with his mechanical skills, his entrepreneurial capacities, supported by the seriousness, commitments and professionalism of his sons, grandsons and great-grandsons, are the base of the development of the company, becoming a global reference in refrigeration. OMD celebrated in 2008 its 90th anniversary from the establishment, being since then always under the same family name. This makes of Dorin the oldest family ruled firm, globally speaking, in the field of refrigeration, with all the consequences in stability,

reliability and commitments towards the customers. The human factor, coupled with a permanent technological development and with a constant deep research of the best result, lead the Company to become one of the leader name in refrigeration market. DORIN, historical manufacturer for refrigeration compressors, has always been a leader in reliability and Environmental respect for its products. At present times, DORIN is giving a determinant contribution to technological innovation of semihermetic compressors placing itself as reference manufacturer for the highest technological content compressors.

Catapult - Retail Automation System ECRS Gateway - Supply Chain Management

### **Description**

ECRS future-proofs local and regional retailers to win in today's market, while preparing them for tomorrow's opportunities. ECRS' revolutionary CATAPULT® system is the market's only truly unified transaction platform, running in thousands of locations across North America. With CATAPULT, the point of sale, self-checkout, deli scales, fuel pump, pharmacy, mobile, inventory, customer loyalty, back office, e-commerce, and enterprise management all share one single transactional logic. Unified Transaction Logic™ empowers retailers to prosper by providing actionable business intelligence across their enterprise. Unifying hardware, software, and services, ECRS offers friction-free, cost-saving solutions that increase customer engagement while transforming the consumer experience. ECRS is committed to perpetual development, and expanding value through constant innovation. To that end, CATAPULT is fully-customizable. Optional plug-and-play modules work seamlessly with core applications, offering retailers freedom and flexibility in designing their point of sale platform. Retailers can easily expand platform functionality as their business grows. Exhaustive research, intelligent design, and rigorous pre-market testing ensure that ECRS products integrate smoothly into existing retail environments.

### **Description**

The Erie Food Co-op is a full-service community-owned market. We are a cooperative business, which means we are owned and democratically controlled by our investors. The co-op got its start in 1978 when the Minority Health Education Delivery System (MHEDS), a social service agency in Erie, PA, obtained funds to start a co-op with paid employees. Known as the Food Basket, its purpose was to serve the Hispanic community in the area by providing bulk foods at affordable prices. At the same time, a natural foods market was operating in the area called Rainbow Foods.

Freight Handlers, Inc. provides unloading services to the retail grocery, general merchandise and food service industries. Additional labor resources are also provided -freight hauling, case selection, pallet sorting, and trailer switching. FHI is the quality leader in the professional unloading industry, providing the best overall cost, given competitive pricing and exceptional operational performance. FHI's company-paid benefits and competitive production-paid earnings result in quality employees, low turnover and superior service to our customers. Information is the key to lowering your supply chain costs. Detailed management reports identify component costs that can be reduced or eliminated. Our direct invoicing relationships, with vendors and carriers, ensure the lowest cost supply chain solutions where everyone wins. When you decide to partner with FHI, you can eliminate the hassles of independent lumpers, improve dock safety, and achieve a new level of dock productivity which is being enjoyed today by the two largest, privately-held grocery retailers in the USA.

AI-powered Demand Planning & Forecasting, Supply Planning, Sales & Operations Planning and Demand Sensing solutions for F&B and Agriculture companies. Supply chain management in the food & beverage and agriculture industries faces unique challenges due to multiple factors including proliferation of SKUs, the perishable nature of products, stringent safety and regulatory standards, and complex logistics. Traditional approaches of supply and demand planning that use limited data on spreadsheets have proven to be terribly inadequate to achieve market success in these competitive product categories. Our AI-powered planning platform enables you to evaluate multiple scenarios and make data-backed decisions faster than ever before. Combine external market signals such as Point of Sale (POS) data, publicly available and syndicated market trend data with your enterprise data to drive planning processes. Gain increased visibility and insights to confidently plan production, position the right amount of inventory at the right locations and seize opportunities. Ready to make the smart shift? ### **Description**

What We Do The Food Bank of Northwest Louisiana is the largest distributor of donated food for our 7 parish area and we are one of only five food banks in the state. We sort, warehouse and distribute food to over 150 non-profit organizations, shelters and churches in our seven-parish region, which includes Caddo, Bossier, Bienville, Claiborne, DeSoto, Red River, and Webster. These organizations, also called "partner agencies", distribute the food to needy individuals free of charge. Some partner agencies operate pantries, bagging up sacks of groceries for parents to take home to hungry families such as Noel Neighborhood Ministries and Operations Blessing Food Pantry. Some agencies prepare and serve meals to the hungry like Christian Service and Salvation Army. Many others are shelters such as Providence House, Oakwood Home for Women and the Shreveport Bossier Rescue Mission, providing refuge for people who require short of long term assistance. Still other groups distribute food to the elderly, many of whom are home-bound or chronically ill. The Food Bank also warehouses Northwest Louisiana's portion of the state's allocated USDA commodity food products. These USDA commodities are available at no cost to our partner agencies. Donated food from coast to coast across the United States is available for up to nineteen cents per pound, a shared maintenance fee, that helps to cover fuel and freight costs to get it here. Local food donations from businesses, individuals, and food drives play a large role in supplying the food needed to provide the 15 million pounds that we distributed last year to 75,000 individuals.

Founded in 2014, Fountain started with a vision to transform the hiring of hourly workers. The majority of the global workforce is composed of hourly workers, but most applicant tracking systems aren't built for this type of worker. Hiring salaried, knowledge workers is fundamentally different from hiring hourly workers, which is why Fountain's Labor ATS is designed to enable recruiters to efficiently hire hourly workers, from application to start date.

### **Description**

In the 1920s, C.L. George and his sons, Luther and Gene, began hauling live birds from Arkansas to larger markets in the Midwest. Many years later, under the leadership of Gene, George's would grow from a small, local business, to a major, fully integrated poultry operation. When Gene's son Gary took over in the 1980s he positioned the company for growth with more facility expansions and acquisitions. As of 2013, Gary's sons, Carl and Charles, lead the fourth generation of George's, Inc. into success and

growth, while maintaining the family values their predecessors instilled in the company. Today, George's is among the top ten largest vertically integrated chicken producers in America.

## **Description**

Because we believe in doers — the ones who take action and get the job done. The ones who change companies and industries forever. Doers take pride in crushing a goal; closing a sale; making a customer happy; and delivering ahead of schedule. Doers don't waste time and don't risk results — they do more with less. We see a world where the doers do less work about work, and have more time for important things — on and off the clock. Always driving forward and taking pride in what they've accomplished. We believe in the doers, because we are doers, too. We are customer-obsessed; execution-oriented; growth-minded, and passionately curious. And we build great products for the doers of the world, so they can do what they do best: Great Work.

At Grobest, we are committed to feeding the world through the development of innovative products to support safe and sustainable aquaculture. Confronted by soaring demand for food due to rapid growth of world population and scarcity of natural resources, we persist with the ideal of "respecting nature for healthy aquaculture" and continue to improve the health and growth of aquatic species by feeding them with advanced nutrition. We believe it is our responsibility to pioneer in R&D and supply advanced aquatic functional feed to the world. Founded in Taiwan in 1974, Grobest has maintained a leading position in the research and development of natural, antibiotic-free feed products for environmentally friendly and sustainable aquaculture. Our continuous success has seen us grow into a company of over 3,500 employees, with offices and operations throughout China, India, Indonesia, Malaysia, the Philippines, Taiwan, Thailand and Vietnam.

The Independent Grocers Alliance (IGA) was founded in 1926 to bring family owned, local grocery stores together under the IGA brand. Nearly a century later, the support of a nationally known brand is still giving IGA grocers the ability to better compete, while at the same time, allowing them to stay true to who they are—hometown store owners in a position to meet the needs of their unique communities. Today, communities ?across the U.S. are being served by second, third and even fourth generation local IGA grocers. As the largest affiliation of independent grocers in the U.S. and around the world, the Independent Grocers Alliance boasts over 1,600 U.S. stores and over 6,200 in 30 countries, commonwealths, and territories.

Creating a World of Fresh, Delightful Foods Lakeview Farms, LLC is a leading manufacturer of fresh and convenient dips, desserts, and specialty products. The company brings true innovation to the refrigerated categories in which it competes, offering a wide-ranging selection of delicious and unique products to its customers and consumers. We think of ourselves as Creating a World of Fresh, Delightful Foods. In 1988, Lakeview Farms started with one customer and a few employees who knew that success and future growth would depend not only on delicious products, but also on unparalleled dedication to our customers and their success. Over the years, the company has grown to provide an extensive portfolio of fresh, refrigerated dip products that includes hummus, salsa, layered dips and a wide variety of dairy, deli and seafood dips. Lakeview Farms also produces delicious sweet treats and desserts that include many varieties of gelatin, pudding, parfaits and premium desserts that delight consumers across the country. The company is constantly working to develop new products that will appeal to the foodies in all of us, with on-trend and timely innovation across our portfolio of brands and product lines. At Lakeview Farms we do desserts, dips and specialty products... and we do them very well. We are proud of our creative product development, innovative packaging, quality assurance protocols and modern production facilities that enable us to satisfy our customers and consumers as we build on our commitment to Creating a World of Fresh, Delightful Foods.

Lavazza, Kicking Horse Coffee

## **Description**

Before being served, coffee passes through forty pairs of hands in its journey from sowing to an espresso cup. Behind every one of these exchanges, there is a different culture, a face, a story to be told. 40 Hands is a journey to discover the people who have decided to dedicate their lives to their passion for coffee. The coffee journey follows a path that unfolds through generations and latitudes, united by the same values: "Respect, dedication and responsibility, especially towards nature," says Enrique Mancilla Oyos, a Peruvian farmer who has been working with Lavazza for years. His ancestors processed coffee at Nagazú, but at the time there were no roads, so production was limited to the needs of the family.

Remedy Kombucha and Remedy Energy

## Description

We could tell you that when Sarah and Emmet Condon started Liquid Remedy in their kitchen in Melbourne, Australia, they had no idea what lay ahead. But we'd be lying. They had an inkling. It all started with some home-brewed kombucha. Their kids were into it. Their mates were hooked. Family members were dropping by more often for a taste. So,

they took a chance. Some might call it a massive risk. They had a young family. No jobs to fall back on. Some savings, a couple of credit cards. Entrepreneurial know-how, but no experience in the food and drinks world. What they did have was big aspirations and a simple belief. They wanted to do something good. Shake things up. They knew that healthy didn't have to be boring. Healthy could be tasty. Extraordinary, even. They believed we all deserve to know that too.

### **Description**

Four Generations and more than 60 years later, Maple Leaf Farms duck continues to create culinary experiences from the kitchen table to restaurants around the world. Our farm to fork focus and vertical integration ensures that you are getting the tastiest duck in the most sustainable and humane way possible. We knew from the start that treating our ducks right is our top priority. That's why we put care into every step of farming, feeding, and processing. We keep our ducks as happy and healthy as possible at our farms. They eat a healthy balance of grains and veggies and are free to roam in cage free barns. We knew this was a priority from the start, so we developed the first and only duck well-being guidelines with veterinarians and poultry scientists from all over the country. Our Trident Stewardship Program is the leading duck care program in the world.

## Description

Marketing Management Inc. (MMI) is a sales and marketing company focused on consumer packaged goods with brand owners and manufacturers of brands. Our suite of services is offered through a collection of companies dedicated to specific functions along the lifecycle of consumer packaged goods. Our focus is not only with new and emerging

brands wanting to gain initial distribution into the marketplace, but also with brands that have successfully entered the consumer retail space, but need assistance in managing their business. We help clients plan for expansion across all of North America, including Canada and Mexico. We can start early in the lifecycle with initial brand development, sales planning and the communication of your product's unique selling propositions (USPs), which we validate through consumer research. Or we can enter the journey after critical distribution has been achieved and your business needs more attention to take advantage of market place opportunities. Whether you are an emerging brand looking to compete or an existing mid-tier relevant brand wanting to expand... our organization can guide you along the journey of success. MMI is YOUR TRUSTED RESOURCE for SUCCESS.

### **Description**

The MarketPlace Limited is a chain of 8 grocery stores located throughout Bermuda. The MarketPlace Limited was originally the Piggly Wiggly and was started in 1939 by the Crisson family. In 1946 the operation was purchased by the Pimental family and in 1950 it again changed hands when it was acquired by Mr. Fernance Perry. The location of the original store has moved many times, from the corner of Parliament & Reid Streets and from there to the corner of Parliament & Church Streets and finally in 1961 it moved to its present home on Church Street opposite the Hamilton Cathedral. In 1960, then owner Mr. Fernance Perry formed a limited liability company, Piggly Wiggly Limited. In 1964 Mr. Perry decided to expand in a westerly direction and built the Somerset Piggly Wiggly Plaza. The following year the decision was made to expand again, this time in an easterly direction, and the Shelly Bay Piggly Wiggly Plaza was built. Nine years later in 1974, the Heron Bay Piggly Wiggly Plaza was completed. In 1977, the Shelly Bay Plaza fell victim to an arsonist and was burned to the ground but within a year was rebuilt and back in operation. In March of 1979, Piggly Wiggly Limited was purchased by Mr. Alvin Ferreira who at the time owned the Modern Mart grocery store on the South Shore Road in Paget and a number of cycle rental companies. In 1981, the name of the four stores were changed to the MarketPlace stores while Modern Mart continued to trade under it's own name. In September of 1987 the company further expanded with the acquisition of the A-1 Grocery Stores, the A-1 in Paget and the A-1 in Smith's. In August 1993, Mr. Alvin Ferreira unfortunately passed away at the age of 50, His wife Pamela took over ownership of the group of companies, which have continued to grow. In June of 1994 the group acquired the property and the operations of the Shopping Centre Limited on

Victoria Street in Hamilton. The MarketPlace Group of Stores are the most modern in Bermuda and in many cases surpass the quality of stores in North America.

### **Description**

It takes guts to start a business during the Great Depression. And it takes vision to keep it going. Our founder, Hendrik Meijer, opened Thrifty Acres in 1934. Almost thirty years later, his son, Fred, pioneered the world's first ever supercenter - setting the table for who we are today: a multi-billion-dollar household name in retail. Of course, we're not done. Not by a long shot. We recently launched the nation's largest grocery home-delivery service - reinventing the business of grocery shopping ... again. A lot has changed over the years, except for one thing; we're still family owned. And that sense of family runs deep in everything we do. It's the difference between selling a product and serving a community, and it's the reason we've given back over \$30 million to local food pantries in the last ten years.

### **Description**

The Molson Coors Beverage Company is a multinational brewing company, formed in 2005 by the merger of Molson of Canada, and Coors of the United States. It is the world's seventh largest brewer by volume While the company is incorporated in the United States, it is traded on stock exchanges in both the United States and Canada, and control is equally shared between the Molson and Coors families. The company is headquartered at 1801 California Street, a 1,372,179-square-foot (127,479.6 m<sup>2</sup>), 53-story building formerly known as the Transamerica Tower in Denver. It occupies 67,000-square-foot (6,200 m<sup>2</sup>) of space located on the 45th, 46th and part of the 47th floors of the structure.[7][8] Molson Coors expanded significantly after the merger of Anheuser-Busch InBev and SABMiller in October 2016. This was achieved because during the plans for the merger, SABMiller had agreed to divest itself of the Miller brands by selling its stake in MillerCoors to Molson Coors.[9]

## **Description**

Since 1942, the Musco Family Olive Company has been focused on providing the highest quality olives to the foodservice industry. Nearly 80 years later, we're prouder than ever to supply many of the California Black Ripe and Sliced Olives found in restaurants across the country. The California Difference As the only 100% California-owned, family-run full-line olive business in America, the Musco Family Olive Company is known for outstanding, uncompromising quality. Our supply chain has been the same for decades, anchored by long-term relationships with multi-generational California farmers. Our black ripe olives are sourced from over 450 California growers — each one a valued member of our extended family. Our process is completely transparent, resulting in consistently superior-quality olives from tree to table. Our competitors, on the other hand, mix and match different types of olives from a variety of countries, resulting in inconsistent textures and flavors.

Growing for a kinder future Imagine breaking from tradition to ensure a brighter future for generations to come. At Nature Fresh Farms®, we're committed to nourishing people and the planet through greenhouse farming. Since 1999, our family-owned company has sought a simple yet profound goal: To cultivate a kinder, healthier future. And decades later, we've become one of North America's largest vertically integrated leaders in greenhouse-grown produce. We're growers, for sure, but in more ways than one - greenhouse builders, plant nurturers, and partners with like minds and kindred spirits. Our vision goes far beyond our current accomplishments ... we are committed to innovation and conservation, to reduce waste and promote biodiversity, and to create a friendlier future for all.

## **Description**

Since our founding in 1971, Nihon Shokken Group has accomplished continuous growth and has become internationally distinguished. As we continue to expand, we aspire to promote the development of "deliciousness" and "convenience" in food culture through the research, production, and sales of sauces and seasonings. Nihon Shokken Group began American operations in 1988 with opening its Los Angeles Sales Office in Torrance, California. As a subsidiary of Nihon Shokken Holding Co. Ltd., the company initially imported and distributed sauces and seasonings made in Japan throughout the U.S. Great reception of our products allowed our company to open other branches nationwide which encouraged the foundation of Nippon Shokken U.S.A. in 2006. In April 2013, after being captivated by the beauty of the region's resources and surrounding food

culture, the newly named company established roots locally through building a new manufacturing facility in West Sacramento and started domestic production of products in June 2013. From this 70,000 square foot head office and plant, we produce fresh, high quality products for our valued customers as we embark on furthering and delivering new innovations to food culture in the U.S. Specialties Sauce, Batter Mix, Japanese Cuisine, and food manufacturing

## **Description**

Established in 1918 by its founder Mr. Mario Dorin as manufacturer of mechanical tools and machines, air compressors, liquid pumps and service centre for vehicle engines, OMD in 1932 focused on production of refrigeration compressors and their systems. Soon this became the major field of work of the company. The genius of the Founder together with his mechanical skills, his entrepreneurial capacities, supported by the seriousness, commitments and professionalism of his sons, grandsons and great-grandsons, are the base of the development of the company, becoming a global reference in refrigeration. OMD celebrated in 2008 its 90th anniversary from the establishment, being since then always under the same family name. This makes of Dorin the oldest family ruled firm, globally speaking, in the field of refrigeration, with all the consequences in stability, reliability and commitments towards the customers. The human factor, coupled with a permanent technological development and with a constant deep research of the best result, lead the Company to become one of the leader name in refrigeration market. DORIN, historical manufacturer for refrigeration compressors, has always been a leader in reliability and Environmental respect for its products. At present times, DORIN is giving a determinant contribution to technological innovation of semihermetic compressors placing itself as reference manufacturer for the highest technological content compressors

Since 2006, we've provided a solution for companies that desire to have best-in-market representation. You no longer have to choose between regional expertise and a national broker. With OSMG, you get the best of both worlds. How it works Each OSMG partner serves as an independently-owned regional broker, with personal relationships and familiarity with their specific accounts in their region of the country. When you decide that you want nationwide coverage, the partners join together seamlessly to create one cohesive broker - On Shelf Marketing Group (OSMG). The same time and dedication you would receive in a local setting is applied throughout the nation.

Inspired by the need for a collective voice of the plant-based foods industry and representation in government, The Plant Based Foods Association was created in 2016 by our founding board members, Jaime Athos, Martin Kruger, Nicole Sopko, Miyoko Schinner, and Michael Lynch, and founding executive director, Michele Simon. The Plant Based Foods Association officially launched at Natural Products Expo West with 23 member companies in March of 2016. The board, founding executive director, and these 23 brands were the pioneers of PBFA. Each company believed in the path of exponential growth and vision of the plant-based foods industry, and this created the foundation for PBFA's post-launch accomplishments and current successes.

## **Description**

Retail Insight is a leading provider of in-store execution software for grocery retail. We help retailers tackle some of their biggest challenges, including product availability, food waste management, labor productivity, and phantom inventory. We believe that successful solutions are built on a fundamental understanding of the nuances and complexities that come with the retail industry. This is why we use cognitive technology; the augmentation of human subject-matter expertise and analytics with advanced mathematical techniques. Our software solutions ingest a retailer's foundational data to surface actions for your in-store teams as well as provide all-level reporting. As a result, we seamlessly integrate with your existing tech stack, require little IT investment or change management, supplement existing inventory and ordering systems and carry little to no capital investment. As a result, we now work with many of the world's leading grocery retailers and CPGs.

### **Description**

Two of the most trusted household brands, Reynolds® and Hefty®, joined together as Reynolds Consumer Products in 2010. While the establishment of this new company made it official, the truth is that Reynolds® and Hefty® products have been found side-by-side in the kitchens of American families for more than three generations. The

creation of both the Reynolds® and Hefty® brands is the direct result of American ingenuity mixed with a bit of elbow grease. Reynolds Wrap® foil was invented after aluminum was no longer needed for military use; and became a new staple for American kitchens. Hefty® waste bags were first developed with excess material from an early plastics innovator, creating another household essential.

### **Description**

Industries around the world are at a turning point. Global megatrends such as population growth, urbanization, food, water, and energy scarcity, labor and skills shortages, and climate change are forcing companies to approach their business strategies in new ways. Meeting these growing resource challenges demands more than just sustainable solutions. It demands practical answers forged from deep experience, nimble application, and creative ingenuity that constantly reimagine the possibilities. At Sealed Air, we partner with our customers to solve their most pressing resource challenges by delivering new solutions derived from our unmatched industry knowledge and expertise. These solutions create a more efficient, secure and less wasteful global food supply chain and enhance commerce through fulfillment and packaging solutions to protect the worldwide movement of goods.

### **Description**

With our community and partners, we will increase food security and create pathways that build a stronger Northwest North Carolina. We believe that access to food is a right; it serves as the foundation for each of us to live our best life and for our communities to thrive. In our work we will: ?Have compassion and empathy for all individuals. Honor the dignity of our community members. Create change that requires collaborative, community-driven approaches. Engage and listen to our community through mutual invitation. Embrace everyone's talents and gifts in creating solutions. Value diversity and create a more inclusive environment. Apply an equity lens to our actions and

decision-making. Demonstrate accountability, trust, and respect for those we work with, those we serve, and those who entrust their resources to us. Seek innovation to advance our mission.

Southern hospitality. Silicon Valley tenacity. Nationally recognized. Our caring nature and innovative spirit runs deep in who we are and what we believe. We're more than delivery. We go beyond bringing the things people need - to building positive and personal relationships that last. Whether it's taking the time to get to know our members, coming together as a team to make shoppers feel extra appreciated, or authentically representing ourselves and our partners — we spark connections that show every person counts. That's how a simple delivery can feel like so much more.

### **Description**

Our journey began in 2015, when our founder's consulting firm, Bianix Technology, won a contract to solve the item on boarding challenge at Canada's largest retailer, Loblaw Companies Ltd. We revolutionized item setup at Loblaw, reducing time to onboard new items from weeks and months to 1-3 days, generating over 30 million dollars annually in increased profit, and millions more in cost savings. Inspired by this success, we decided to bring our solution to the world. In 2017, we launched Simplista, an agile, intelligent, API-centric SaaS platform designed to streamline trade between retailers and their supplier partners.

### **Description**

Spoiler Alert is a B2B software company for CPG brands to manage sales of excess and short-dated inventory, recover value and increase sustainability. Working exclusively at the manufacturing plant or distribution center level, Spoiler Alert offers a best-in-class sales platform that enables CPG brands to automate their discounting processes across a private network of discount retailers and nonprofit channels - with a heavy focus on maximizing value recovery, strengthening customer relationships, and increasing the effectiveness of CPG teams tasked with minimizing inventory write offs. Founded by alumni of MIT, Spoiler Alert works with some of the world's largest brands, including Campbell's, Danone, HelloFresh, KeHE Distributors, and Kraft Heinz, along with a growing network of discount channels committed to increasing affordable food access. The company is backed by some of the nation's leading food, agriculture, technology, and supply chain investors, including Maersk - the global leader in supply chain and logistics. Our leadership team brings decades of experience across enterprise software, supply chain management, ecommerce, and data analytics within the CPG and retail industries. We are Friends of WRI's Champions 12.3 (the industry's leading stakeholder group committed to corporate food waste reductions), are members of ReFED's Expert

Network, Pledge 1%, Climate Collaborative, and regularly contribute to the national dialogue around waste prevention and supply chain innovation - including through our affiliation with the Walmart Food Safety Collaboration Center. Spoiler Alert is a winner of the 2022 Food Logistics Top Software & Tech Awards, ECR Top 30 Innovations in Food Waste 2022, The FoodTech 500, Tracxn Emerging Startup 2022, and Built In Boston's 22 Startups to Watch.

### **Description**

99 Ranch Market, also known as Tawa Supermarket, was established in 1984 by Mr. Roger Chen. As a Taiwanese immigrant, he noticed a cultural gap in the typical American supermarket where he saw a need for an Asian supermarket in surrounding communities. He filled that gap and thus, the very first 99 Ranch Market was born. Our company slogan, "For 100, we try harder" demonstrates our commitment to always provide the best products and services to the communities we serve. "Ranch Market" represents freshness and symbolizes our promise to deliver the freshest products. With the support of our loyal customers, hardworking employees, and supportive vendors, we have grown to become one of the largest Asian supermarket chains with 69 stores across 10 states. Looking towards our bright future, we are determined to take our company to the next level and provide more convenience and value for our customers. By implementing new technologies and solutions, we now offer online shopping, in-store pick-up, and same-day delivery services (selected stores only). In order to introduce the diversity of Asian food culture, we've launched a new modern "Eat Up" food court at all new store locations.

### **Description**

We've been in your shoes. We've experienced your frustration. The Allan Sullivan Co. was born when we set out to change it. We built the brokerage to provide the value we wish we got when we were in your position. Over the course of our careers, we've led everything from category and trade marketing to national account teams and business units in excess of \$1B. We've been on the manufacturer side of the table and the retailer side of the table. We've been at large multinationals and small startups. No matter where we were, we kept being underwhelmed by the quality of the manufacturers reps we ran into. Even the ones we hired - we were always left wanting more. How was it possible that such a critical part of the value equation could come up so short so often?

The Greater Boston Food Bank (GBFB) is the largest hunger-relief organization in New England and among the largest food banks in the country. GBFB powers a distribution network of over 600 partner agencies in 190 cities and towns across Eastern Massachusetts, feeding more than 600,000 people and distributing over 104 million pounds of food annually. GBFB acquires 76% of our food through financial contributions from generous donors to procure high-nutrient quality food. With our purchasing power, we can confidently guarantee that for every dollar donated, 92 cents goes to hunger-relief efforts. We also benefit from the generosity of over 27,500 volunteers annually who help to sort and pack food products to be distributed to our partner agencies across Eastern MA. GBFB works to acquire, store, organize, and distribute food through our 600 partner agencies that include local food pantries, community meal programs, homeless and residential shelters, youth programs, senior centers, and day-care centers embedded in

communities throughout 190 cities and towns of Eastern Massachusetts. GBFB's partner agency locator provides an easy way for people in need to find help nearby. GBFB also distributes food directly to those in need through dedicated programs that serve particularly vulnerable groups, such as seniors and children. Since 2009, GBFB has operated out of a state-of-the-art, 117,000 square foot food distribution facility, the Yawkey Distribution Center, located in the Newmarket section of Boston. The Greater Boston Food Bank is a member of Feeding America, the nation's largest hunger-relief organization.

## Description

SESCO® is the U.S. leader in providing equipment, engineering, commissioning, and energy management services for supermarket and restaurant HVAC systems. SESO® has helped more supermarkets qualify for ENERGY STAR criteria than any other company in the United States. SESO® is recognized by industry and government for its expertise and continuing contributions to energy management through applied leading edge technologies within the supermarket HVAC discipline. SESO® participates with industry and government to further energy management technology through the ENERGY STAR Program and other "Green Building" initiatives. SESO® is publicly acclaimed for its contributions to the industry by major supermarket chains and the Environmental Protection Agency. The goal of the SESO® Program is to ensure the HVAC systems SESO® provides commission as close to their design point as possible. As most customers can attest, strip shopping center construction does not always produce the best possible results and the owner ends up paying for deficiencies in the form of unnecessarily high energy bills. Broad application of the SESO® Program to new store development and remodel programs produces significant reductions in operating costs associated with energy and maintenance. SESO® has completed more than 3,000 supermarket projects over the past 20 years. Our commitment to continuous process improvement throughout our history has resulted in the most experienced knowledge base regarding supermarket environments of any company in the United States. Thermal Resource Solutions specializes in complex, custom, and energy-efficient mechanical and plumbing systems. We provide best-in-class application engineering and equipment services tailored to individual client needs. We approach a project from a systems perspective rather than an individual equipment perspective. We understand how all equipment components interact and strive to provide the best total system with the highest efficiency and the lowest life cycle cost. We have a full-service division of factory-trained and certified technicians to perform equipment start-up, maintenance, warranty, and commissioning services. Thermal Resource Solutions provides exclusive representation and sales/services for commercial and industrial HVAC and plumbing equipment manufacturers in North Carolina, South Carolina, and Georgia. Typical industries include biotechnology, pharmaceutical, semi-conductor, clean room and life-science applications, hospitals including operating rooms, data centers, university lab and science buildings, high-rise dorms, hotels, K-12 schools, federal/state/local municipal projects, military bases, and much more.

## **Description**

UEP's first organizational meeting was held in Chicago on November 12, 1968 at which time egg producers from across the U.S. recognized the need for a regional cooperative organization to address the needs of the industry. Thus, five regional offices were created: Midwest UEP, Southern UEP, North Atlantic UEP, West Coast and Northwest United Egg Producers. A federated Capper-Volstead Agricultural Cooperative was structured with membership available to producers who are engaged as a farmer in the production of table eggs. Membership is also available to owners of breeder flocks, hatcheries, pullets growers, contract egg producers, and farm cooperatives that meet the requirement of owned or leased facilities. In October 1998, the by-laws of UEP were amended thereby changing the organization to a direct member organization.
